MOTHERS' DAY

Our mom is the best friend we can have, and our kindergarten is also aware of this. Therefore, all the children diligently practiced the program for their moms and enjoyed "flower power" workshops together. We believe, you had a nice time with us.

KIDS DAY FUN

Once a year, children get to celebrate their special day with some treats and surprises. This year, although it came a bit earlier as usually, we were happy to continue the Cambridge - Funiversity - National Football Stadium cooperation in one giant event to celebrate all our kids and to spoil them the way, they like the most: meeting famous cartoon characters, eating cotton candy and enjoying all the fun activities that teachers prepared for them. Well done to everyone for amazing team work on the day, you make great team players!

TEACHERS INQUIRY: What was the biggest fun for you when being small?

Miška P (SM): Winter fun activities with my brothers and friends.

Simi (MD): I really loved to play with my sister Roby and with our doggy Donna. We were exploring the huge, beautiful garden behind our house 😊

Lea (SM): To spend my days with my dad at his work 😂 He was fixing cars- so I was his little helper 😂

Emilia (HP): The biggest fun for me was climbing on the trees with my friend.

Veronika F (MD).: For me it was just running with all my friends around our houses, cooking from the grass, and flowers we found on the meadow.

Jarka (SM): To get on the bus which my grandpa was driving, have a free ride around our village, help him to check the passengers' tickets and then get out like nothing happened. I loved that •

Jude (HP): Climbing trees, playing with my sister and our neighbours, riding bikes. Still do that really 😂

Miška (KOL): I used to build small ponds for fish directly in the river. I dug a hole and put stones around it. Unfortunately, no fish ever swam there as the river was small, only small insects living in the water found their home there.

Inna (SM): Spending time with my grandparents in the summer. We were swimming and playing different games every day.

WORLD OF WORK

In May, we also focused on the world of work - various jobs and occupations we can become once we grow up.

We not even played or presented our future plans in everyday kindergarten life, but were also happy to involve our parents to introduce their jobs bringing their passion and inspiration to kids even closer. THANK YOU!

ON THE ROAD

Children of all ages went to streets to observe and learn how the traffic works. To make it fun and special, they followed a "traffic scavenger hunt" - spotting traffic signs, transport means and traffic rules.
